2. On Constables' Accounts.
3. On Justices' Accounts.
4. On Loan Commissioner's Accounts.
5. On Treasurer's Accounts.

It shall be the duty of each of the Committees to inquire into the matters indicated by its name, and report thereon to the Board any information and any resolution which it may deem conducive to the public good.

IV. *Priority of Business.*—All questions relating to the priority of business—that is, the priority of one question or subject over another under the same order of business—shall be decided without debate.

V. *Chairman to Preserve Order.*—The Chairman shall preserve order and decorum, and shall decide all questions of order, which decision shall be final unless an appeal be taken to the Board. On appeal from the decision of the Chairman, he shall have the right in his place to assign his reason for the decision. He shall also have the right to substitute any member to perform the duties of Chairman, but such substitution shall not extend beyond one day, unless by leave of the Board.

VI. *Vote of Chairman.*—When the Board is equally divided, including the Chairman's vote, the question shall be deemed as lost.

VII. *Order.*—When the Chairman is putting a question, no member shall walk across or out of the room.

VIII. *Order of Speaking.*—A member arising to debate, to give notice, make a motion or report, or to present a petition or other paper, shall address the Chairman, and shall not proceed further until recognized by him.

IX. *Members Entitled to Speak.*—No member shall speak more than twice on the same general question without leave of the Board.

X. *Order and Silence.*—When a member is speaking, no member shall entertain any private discourse, or pass between him and the chair.

XIII. *Manner of Presenting Petition.*—Every member, previous to pre-

senting a petition or memorial, shall endorse on the same the subject to which it relates, adding his name; the clerk shall then state the substance thereof, after which the chairman shall put the question on the disposition of the petition or memorial.

XIV. *Motions and Resolutions*.—Every motion or resolution shall first be stated by the chairman or read by the clerk, before debate and immediately before the question is put, and every such motion, except of the class of motions embraced in Rule 18, shall be reduced to writing if the chairman or any other member desire it.

XIV. *Withdrawal of Motion*.—After a question is stated by the Chairman it shall be deemed to be in possession of the Board, but it may be withdrawn at any time before an amendment or decision.

XVI. *Division of Question*.—If a question in debate contains several distinct propositions, the same shall be divided by the chair at the request of any member, to the end that a vote may be taken on each proposition, but a motion to strike out shall be deemed undividable.

XVII. *Filling Blanks*.—When a blank is to be filled and different times or sums are proposed, the question shall be put on the largest sum or the longest time.

XVIII. *Motion, When Receivable*. When a question is under debate, no motion shall be entertained, unless for an adjournment of the Board, for the previous question, to postpone indefinitely, to postpone to a certain day, to lay it on the table, to commit it, or amend it. These several motions shall have precedence in the order in which they are herein stated.

XIX. A motion to lay a question on the table shall be decided without amendment or debate; and a motion to postpone indefinitely or to adjourn to a certain time, until it is decided, shall preclude all amendment to the main question.

XX. *Previous Question*.—The previous question shall be put as follows: "Shall the main question now be put?" and until it is decided shall preclude all amendment and debate; then, on taking the previous question, and if the Board shall decide that the question shall not be put, the main question shall be considered as remaining under debate. The main question shall be on the passage of the resolution or other matter under discussion.

XXI. *Adjournment*.—A motion to adjourn the Board shall always be in order, and shall be decided without debate.

XXII. *Entries on Minutes*.—In all cases where a resolution or motion shall be entered on the minutes, the Clerk shall enter also the name of the moving member.

XXIII. *Committee of the Whole*.—In forming a Committee of the Whole Board, the Chairman shall leave the chair and appoint a Chairman to preside.

XXIV. *Rules of the Committee*.—The Rules of the Board shall be observed in the Committee of the Whole so far as they may be applicable, except limiting the time of speaking, except that the Ayes and Noes shall not be taken, and except, also, that a motion to rise and report progress shall always be in order and shall be decided without debate.

XXV. *Motions to Reconsider*.—No motion for reconsideration, except by unanimous consent, shall be in order, unless on the same day or the next day of session following that on which the decision proposed to be reconsidered took place, nor unless one of the majority move such reconsideration. A motion for reconsideration being put and lost, it shall not be renewed; nor shall any vote be a second time reconsidered without unanimous consent.

XXIX. *Ayes and Noes.*—If any one member require it, the Ayes and Noes upon any question shall be taken and entered upon the minutes.

XXX. The report of the Equalization Committee, when called up, shall remain under consideration for at least two hours, unless by unanimous consent it be otherwise ordered.

## VIII.—REMARKS.

The Greene County Almshouse was inspected Sept. 30, 1903. In the absence of the keeper, Mrs. Decker, the efficient matron, conducted your inspector about the institution and furnished the necessary information.

In all essentials relating to the comfort and well being of the inmates this almshouse is unquestionably one of the very best in the State.

The rooms were perfectly clean; the beds, bedding and pillows carefully washed and renovated when needed. Each bed was covered with a clean counterpane. The rooms presented a very attractive appearance.

The meals served to-day were: Breakfast—cold meat, warmed potatoes, bread, tea. Dinner—pork, potatoes, gravy, bread, tea. Supper—bread, butter, tea, baked apples.

The bread and general food supplies were of good quality. The inmates evidence the best of treatment and expressed satisfaction with their food and the home in general.

A feeble-minded girl, aged 18, Minnie Tyler, should be transferred to the Newark Asylum. There are also two young women, 20 years of age, one white, Ettie Smith, and one colored, named Harder, for whose retention at an almshouse there is no present reason. They should be discharged or transferred.

The principal needs are:

1. A steam laundry in detached building.
2. A safer lighting system.
3. Shower baths.
4. Fire escapes.
5. A small building for contagious or cancer cases.

Respectfully submitted,

Dated Sept. 30, 1903.

WM. C. ROGERS, Inspector.

*To the Clerk of the Board of Supervisors:*

DEAR SIR:—Pursuant to instructions from the Board of Supervisors of Monroe County, I hereby certify that the enclosed resolution, relative to a ship canal, was duly adopted by said Board November 10th, 1903.

Will you kindly present this matter to your Board of Supervisors, at their next session, and certify to me what action is taken in the matter, and much oblige,

Yours respectfully,

WILLIS K. GILLETTE, Clerk.

WHEREAS, The people of this State have decided by popular vote to expend a vast amount of money in enlarging the canals, and incidentally to build a barge canal, which will be a disappointment to all of us, and will increase the burden of taxation; and

WHEREAS, It is possible to build a ship canal, which will give all of the benefits of any canal to commerce and navigation and at the same time develop water power through the whole length of the state, and of a value of a thousand million dollars, and such a canal can be made to pay for itself from the smallest tolls upon water power and commerce, and be a source of vast benefit to the State of New York, and be worth its cost to the government in opening up a commodious channel for our navy into the Great Lakes, and also be of great benefit to all of the great states bordering on the Great Lakes;

*Resolved*, That while we do not desire to defeat the will of the people of this State as expressed in the recent vote, and we do not desire to delay beginning of work under the act which has been approved by them, we do hereby express our conviction that the surveys for a ship canal ought to be completed, and also detailed studies and a report by experts of the highest grade as to the possibilities of such a ship canal for commerce and creation

of water power, and the cost thereof and the best plan for its utilization for the benefit of the largest number in the community; and further

*Resolved*, That we hereby call upon our Representative in Congress and upon the Senators of this State to bring the matter before Congress at once and strive to secure a commission to make a report before the construction of the barge canal has proceeded too far; and further

The clerk read the following invitation, which was accepted :

CATSKILL, N. Y., Nov. 19, 1903.

*To the Board of Supervisors :*

Respectfully, COMMITTEE.

The clerk read the following opinion of the Attorney General in relation to collectors who are to receive warrants to collect taxes levied in 1093 :

STATE OF NEW YORK, ATTORNEY GENERAL'S OFFICE, }  
ALBANY, N. Y., November 11th, 1903 }

Numerous inquiries having come to me relative to the time when the town officers elected at the various town meetings held Nov. 3d, 1903, take office, I have decided to submit the following general opinion in reference thereto :

Section 13 of the Town Law, as amended by Chap. 491 of the Laws of 1901, reads in part as follows :

"Whenever the time of holding town meetings in any town is changed to the first Tuesday after the first Monday in November, except when changed as provided in Section 43 of this chapter, the town officers elected thereat shall take office on the first day of January succeeding their election. Except that the collector elected at such town meeting in 1903 and biennially thereafter shall take office immediately upon his election and qualification as prescribed by law."

Section 43 above mentioned provides for the change of the time for holding town meetings by the electors in particular towns, but no case where such change has been made in that manner has been brought to my attention.

The above quoted provision was a re-enactment of that part of the same section as amended by Chapter 191 of the Laws of 1901, and was in force March 25th, 1901.

The language of the statute above quoted is very plain and the right of the Legislature to pass such an act as to town officers elected after the passage of such act cannot be called in question. The only doubt, therefore, that may arise, is whether the Legislature could pass an act abridging the term

of office of the collector elected in 1901, by providing that the collector in 1903 should take office immediately.

The act in force prior to the amendment of March 25th, 1901, contained the same general provision as above quoted as to town officers and included in such provision the collector, making his term of office begin January 1st after his election, the same as that of the other officers.

The Legislature accordingly, by the act of March 25, 1901, shortened the term of office of the collector elected in 1901 by providing that his successor shall take office immediately upon his election in November, 1901, and this, I am convinced, the Legislature had the right to do under the ruling of the court in the case of *People ex rel. Williamson vs. McKinney*, 52 N. Y., 374, where the office of collector was under consideration, and Judge Andrews says at page 378:

"The power of the Legislature over the subject was not wholly withdrawn. That was left to the Legislature to decide as to which of the two modes of selection should be adopted. It could change the mode of selection from an election to an appointment by local authorities, or from an appointment to an election. It could declare the portion of the term of office in cases where the Constitution was silent; it could shorten the term of an incumbent of the office, and could abolish the office itself unless it existed by force of the Constitution "

I am of the opinion, therefore, that the term of office of all town officers, except collectors elected at the Fall town meetings of 1903, begins January 1st, 1904, and not before, and that the collectors elected at such town meetings take office immediately upon their election and qualification.

This opinion applies to all town officers who are elected under the general statutes of the state where the time of holding the town meetings has been legally and properly changed to the time of holding general elections, and in any county where there may be special or local acts, such acts will, of course, have precedence over the general laws. JOHN CUNNEEN, Attorney General.

On motion, the Board went into open session for committee work until 7:30 o'clock this evening.

## Evening Session.

The clerk read the following report from the inspector of State Prisons in reference to the Greene County Jail:

### GREENE COUNTY JAIL.

Located at Catskill, inspected September 23, 1903.

The number of inmates on the day of inspection was 5, all men, classified as follows: Court prisoners, 2; serving sentence, 3.

The highest number recently confined in this jail at one time was 14. The average in Winter is about 10, and in Summer 8.

There have been no changes in this jail since the last inspection. It consists of one end of a brick building, the Keeper occupying the other end as a

residence, and contains four rooms, two on each floor, separated from the Sheriff's residence by a general hallway. The interior construction is of wood, except that the two lower rooms are partly lined with sheet iron. Each room has two small windows. These windows are filled up with flat iron bars, so obstructing the light as to make all the room dark. This is especially true of the rear rooms, where the windows are smaller than in the front, and contains four different sets of these flat bars. At the time of the last inspection the Sheriff informed the Secretary the Board of Supervisors had authorized the enlargement of these windows. This has not been done.

The jail has no yard. The prisoners are without employment, except the care of the barn and grounds. The county does not even furnish the Keeper with a garden.

This jail is one hundred and two years old, and is antiquated and insecure. It does not contain any proper place for the custody of women prisoners, of which there have been five during the present Summer.

This county should provide itself with a new and modern jail, with yard and garden attached. The care of a large garden would furnish some employment for the few prisoners in custody here during the Summer, and would somewhat lessen the expense of maintaining the prisoners. Until this is done, the windows should be enlarged and one set of new steel bars be substituted for the present ones. Respectfully submitted,

GEO. McLAUGHLIN, Secretary.

The clerk read the following communication, from the Sullivan County Board of Supervisors, which was received :

WHITE LAKE, N. Y., Nov. 23, 1903.

*To the Honorable Board of Supervisors of Greene County :*

Late in the last session of the State Legislature a bill was introduced by Senator Allds, of the 26th Dist., amending the Highway Law so as to remove the one-tenth of one per cent. limitation of State aid under the money system in towns of less than \$1,000,000 valuation, exclusive of incorporated villages. The bill passed the Senate but was not reported by the Assembly committee. It will again be introduced early in the next session of the Legislature, and we would respectfully suggest that you co-operate by Resolution directing your Member of Assembly and Senator to urge the passage of the bill.

We trust that you will co-operate in securing this amendment, which is of the greatest importance to the smaller and weaker towns of the State. Kindly advise us of what action your Board may take.

Hoping to hear favorably from you, very truly yours,

VALENTINE SCHEIDELL,

On motion of Mr. Brady, the privilege of the floor was given Orrin Day, W. I. Jennings, F. H. Osborn and C. E. Bloodgood, a committee of citizens having some business to present before the Board. Mr. Osborn addressed the Board, presenting the following petition, which was received:

*To the Honorable Board of Supervisors of Greene County:*

We, the undersigned executive committee of the Taxpayers' Committee of Catskill, respectfully petition your Honorable Board as follows:

1st.—That you retain an attorney and counselor at law at an expense not exceeding \$100, to act as the legal adviser of your Board at the present session for the purpose of aiding you in determining as to the legality of claims which have been or shall be presented to your Board, and advising you in other respects if desired, and we beg to recommend the selection of Arthur M. Murphy, Pierre S. Jennings or Howard C. Wilbur as such counsel. The employment by your Board of a competent attorney for the purposes indicated would undoubtedly result in the exposure and rejection of illegal claims and would thus serve the best interests of the taxpayers.

2nd.—That all claims presented to your Board be published in full as presented on slips for the use of your Board and taxpayers desiring the same, and that such publication include all claims presented by members of your Board for services and expenses.

3rd.—It appears by the proceedings of your Board already published that claims against certain towns of the county which can only be legally audited by the town auditors, have been presented to your Board for audit, and that your Board has assumed to audit and charge the same against such towns. We beg to call your attention to the fact that this is a violation of the law, as it is the duty of town auditors to pass upon such claims, and your Board has no authority or right to do so. Your action upon such claims is illegal and does not authorize payment of the claims. The statute relating to the power of Boards of Supervisors was changed by Chapter 686, Laws of 1892, see section 12. It is apparent, therefore, that counsel to your Board should be employed, and we understand that this is done in other counties of the State.

4th.—We respectfully ask that this communication be filed with your records, and published in the proceedings of your Board.

The clerk read the following communication :

ROCHESTER CHAMBER OF COMMERCE.

At a meeting of the Trustees of the Rochester Chamber of Commerce

held Thursday, November 19th, 1903, the following preamble and resolutions were unanimously adopted.

The Chamber would be pleased to have you favorably consider same.

JOHN M. IVES, Secretary.

WHEREAS, Largely through the efforts of the Rochester Chamber of Commerce, the majority of nearly 200,000 by the State, practically unanimous outside of New York city and Buffalo, against building the thousand-ton barge canal, which would do away with our present canal and prevent building a suitable deep waterway for the State and Nation, cannot be interpreted as unfavorable to proper waterway development, and

WHEREAS, The greater majority obtained in Greater New York, where the opposition was made largely on an appeal for commercial supremacy and against railroad discrimination, and what other nations had done with their canals (mainly ship canals), and that the bargeway was the best possible solution, can also only be interpreted as a desire for proper waterway development, and

WHEREAS, The State has signified its desire for new waterways and authorized an expenditure of \$101,000,000 therefor, and

WHEREAS, Other States are equally interested in an adequate waterway from the lakes to the seaboard, and the Federal Government has surveyed a 21-foot deep waterway through, costing but \$200,000,000, and yet carrying the 9000-ton vessel in half the time and at half the freight rate of the bargeway, and such deep waterway alone meets the commercial and naval requirements of the State and Nation, and

WHEREAS, A new method of electric towing and other devices make our canals wholly serviceable for present needs, and equal to the 10,000,000 tons capacity of the proposed bargeway, without such huge expense, and

WHEREAS, So huge a project, and the largest appropriation by any State or Nation for a single object, should not be hastily inaugurated, therefore

*Resolved*, That the Rochester Chamber of Commerce respectfully petitions the Governor and Legislature of this State to a careful consideration of the above premises, to the end that earnest efforts be made to secure such co-operation between the State and Federal Government as shall secure deep waterways through New York State, and be it further

*Resolved*, That this Chamber respectfully presents to the President and Congress of the United States that the State of New York has authorized new waterways at an expenditure of \$101,000,000 and that if the Nation should meet it on some co operative basis, the 21-foot navigation system of the Great Lakes as already surveyed could be extended to New York city, making these practically an arm of the sea and thus furthering the commercial and naval supremacy of the Nation.

Mr. Krieger offered a resolution that the petition be given to our Assemblyman, requesting him to use his best efforts to secure the co operation prayed for.

Ayes and Noes taken and the resolution adopted by the following vote:

AYES—Tompkins, Brady, S. W. Stevens, Post, Greene, Moore, O. C. Stevens, Kelly, O'Hara, Woodworth, Thomason, Elmendorf, Krieger, Cole.—14. NOES—None.

The clerk read the following communications from the State Engineer and Surveyor, and on motion of Mr. Brady, the communications and map referred to were laid upon the table for further consideration :

ALBANY, November 13, 1903.

*To the Clerk of the Board of Supervisors of Greene County :*

DEAR SIR :—Believing that the time has come when it is advisable to make a careful study of a continuous system of improved roads through the different sections of the State under the provisions of the Higbie-Armstrong act (Chapter 115, Laws of 1898), I have prepared a map showing all of the highways in your county, which is herewith presented, and suggest that your Board of Supervisors carefully consider the same with reference to the establishment of a system of roads in your county to be improved in the near future at such times as your Board deem advisable. On this map, the roads constructed and under contract are shown by red lines, the roads for which your county has approved plans and appropriated its half of the cost are shown in green, and all roads for which petitions have been received are shown by a broken green line.

I am sending with this a map of Oneida county, showing the county system as laid out by the Board of Supervisors in that county, their intention being to improve the roads from year to year along these general lines, which map is sent to you as a sample of what could be done in each county of the State if thought advisable by the Board of Supervisors. You will observe on the Oneida county map that one road starts at Oriskany Falls at the South and runs almost due North through Vernon Center, Rome, Westernville and Boonville to the North line. Another line of road starts at the Herkimer county line North of Utica and runs Northeasterly to Rome through Taburg and so on through the town of Florence with a branch leading to Camden (covering the greatest number of townships with the least mileage possible).

In your county it would seem desirable to provide a line running through the town of New Baltimore and so on Southerly through the towns of Cox-sackie, Athens and Catskill to the Ulster county line. This will connect with the system of improved roads in Ulster county on the South and Albany county on the North. Owing to the mountainous region in the Western section of your county no means of communication could well be adopted there, and it might be desirable to provide a line extending Northwesterly through the towns of Catskill, Cairo and Greenville or Durham which will connect with the system of roads provided for Albany county. In adopting a county system it is, of course, desirable to cover some portion of each township so far as practicable.

It may be deemed desirable by your Board to adopt the map of Greene county which I am sending as the official road map, substantially as was

done by the Oneida County Board of Supervisors in their resolution adopted December 11th, 1902 (a copy of which is herewith enclosed), after having decided upon the highways which shall constitute the county system. If it is desired I will gladly have a representative of this Department meet your Board at some date arranged between us. I would be pleased to have this matter discussed and the road map returned to me with your recommendation on or before December 12th, 1903.

I enclose herewith a tabulation showing the progress which has been made in the several counties of the State in the improvement of roads up to October 1st, 1903, namely:

484 miles of road are practically completed, none of which are in Greene county. 481 miles for which the Board of Supervisors have voted their half of the cost, none of which are in Greene county. 2,880 miles for which the first petitions have been presented, 6 miles of which are in Greene county.

The total mileage of highways in the State is about 74,097 miles, including about 1,027 miles in Greene county.

Very truly yours,

EDWADD A. BOND, State Engineer and Surveyor.

P. S.—The within suggestions are only intended to call your attention in a general way to the consideration of this subject, believing that the personal acquaintance of each of the members of your Board will bring the best results.

ALBANY, November 27, 1903.

*To the Clerk of the Board of Supervisors of Greene County:*

DEAR SIR:—For the purpose of complying with the provisions of Section 15 of Chapter 115 of the Laws of 1898, the Fifth Annual Supervisors Highway Convention of the State of New York will be held in Albany on the 26th and 27th days of January, 1904. I sincerely trust that the Board of Supervisors of your County will at an early date name three or more delegates to attend as its representatives. In view of the duties imposed upon Highway Commissioners in regard to the maintenance and repair of roads improved by State aid, I will be glad if your Board would also see fit to designate three or five Highway Commissioners from your county as delegates.

At the last convention held in Albany, in January, 1903, there was a large attendance, fifty-one counties in the State being represented, and the proceedings were of unusual interest. At that time the appropriations made by the several counties throughout the State for their share of the cost of highway improvement largely exceeded the appropriations which had been made by the Legislature, and through lack of sufficient funds the work of construction was not taken up as rapidly as would otherwise have been the case. For this reason, it was deemed advisable by the convention that some practical method be devised whereby the State could obtain sufficient funds to meet its share of the cost of improvement as rapidly as the counties appropriated their portion. After a full discussion of this matter, a resolution was adopted in favor of an amendment to the Constitution, authorizing the State to issue bonds for the purpose of obtaining funds to be used in the improvement of public highways by State aid.

It is with pleasure that I am able to inform you that this proposition met with the favorable consideration of the Legislature of 1903, and a concurrent resolution was adopted to that effect, which, if it passes the next Legislature, will be submitted to the people for ratification, and if it meets with their approval will then become a law.

There are many matters of importance in connection with this work which will be brought before the convention, and, I believe that the proceedings will be both interesting and instructive.

I enclose form of resolution naming delegates, which, if adopted by your Board, kindly send to me as quickly as possible. The delegates appointed will be notified by me in due time as to the hour and place in this city in which the convention will be held.

Very truly yours,

EDWARD A. BOND, State Engineer and Surveyor.

P. S.—I will also be pleased to hear from your Board at an early date in regard to the adoption of a county system of roads as outlined in my recent letter on that subject.

On motion of Mr. Kriger, the Chairman was authorized to name a committee to attend the convention.

The clerk read the following report of Commissioner for Burial of Deceased Soldiers, which was received and ordered printed in the Journal :

*To the Honorable Board of Supervisors of Greene County :*

GENTLEMEN :—I would respectfully report that during the year 1903 I have been called upon to bury one soldier, viz.: Jacob Wayman of Ashland, N. Y., died April 8th, 1903 ; Company D, 134th Regiment, N. Y. Volunteers. Buried at Ashland cemetery. The clerk read the following communication, which was received and the clerk instructed to furnish information requested.

NEW YORK, December 3, 1903.

*To the Clerk of the Board of Supervisors of Greene County:*

I understand that your Board is greatly in favor of the removal of the limitation on State aid to towns under the money system. As I am a member of the standing committee of the Supervisors' Convention and that committee is soon to meet to formulate its report and recommendations to the next Supervisors' Convention, I desire to know whether I am correctly informed about the position of your Board on the removal of the limitation on State aid to towns; also I ask the following questions with request that I may be speedily informed, as I do not know the exact date for the committee meeting.

I. Are all of the towns of your county, except Coxsackie, Halcott and Prattsville, under the money system?

II. What towns in your county are deprived of the full fifty per centum of the State aid by the limitation of one-tenth of one per centum? And how much is deducted?

III. Would the change of the limitation from one-tenth of one per centum to a full fifty per centum of the road taxes in towns of less than one million dollars assessment aid your towns, and if so what towns?

I enclose a copy of Highways B. No. wherein on pages 29, note (40) and the next page, 45-46, I have suggested a change. I am not prejudiced and our organization is not committed to this particular change. On page 95 of Highways A. No. 4, also enclosed, there is a resolution, placing the town tax somewhat under the control of the State Engineer; would this be a good thing? Our organization favors this control but will aid in any change which is generally favorable.

May I ask you to become one of our general members, using the enclosed application?

I would be glad to have a copy of your report for the year now closing, when published.

Very truly yours, JOHN B. UHLE.
